As a Registered Occupational Therapist specializing in dementia care and training for over 30 years, Teepa Snow's experience led to the development of her "Positive Approach to Care Techniques," which is being used by families and health care professionals to help navigate the challenges of living, working with, or caring for those suffering from dementia or other brain changes.

This is a must-see event! Ms. Snow is a nationally-acclaimed expert and speaker. Her unique and energetic style combines education and wit, and enables her to effectively demonstrate the struggle and challenges that dementia poses to everybody who is impacted by this disease.

We are pleased to be able to offer this program **free-of-charge**. The Illinois Valley Alzheimer's Group's main objective is to bring education and awareness to the community about Alzheimer's disease and dementia. Appetizers will be served prior to the program, courtesy of Pleasant View of Ottawa.
