

Radio CINA Montréal

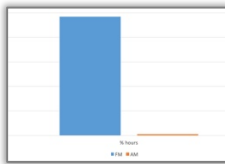

Culture is important

Arabic media is the best way to reach 277,000 Arabic-speakers in the Greater Montreal Area.

Consumers respond best to advertising in their own language. Newcomers may not understand English or French well enough to respond to an ad at all. Arabic consumers believe that companies who advertising in Arabic media are sensitive to their shopping needs. Radio CINA Montreal is your link to Arabic shoppers.

More people listen to FM than AM

Radio CINA Montréal is the only Arabic station with a full signal on the FM band and our listeners love our music. FM is a more effective medium to reach consumers because the band appeals to all age demographics. AM appeals primarily to shoppers over 60. Radio CINA reaches all Arabic consumers.

Digital media is critical.

Radio CINA Montréal has very active web and Facebook sites. Our contests attract a large number of website visits. Many of our programs are available on demand. Radio CINA Montréal also broadcasts live online on our website www.radiocina.ca and the TuneIn app (CKIN-FM).
