Targeted Display Ads

Explained

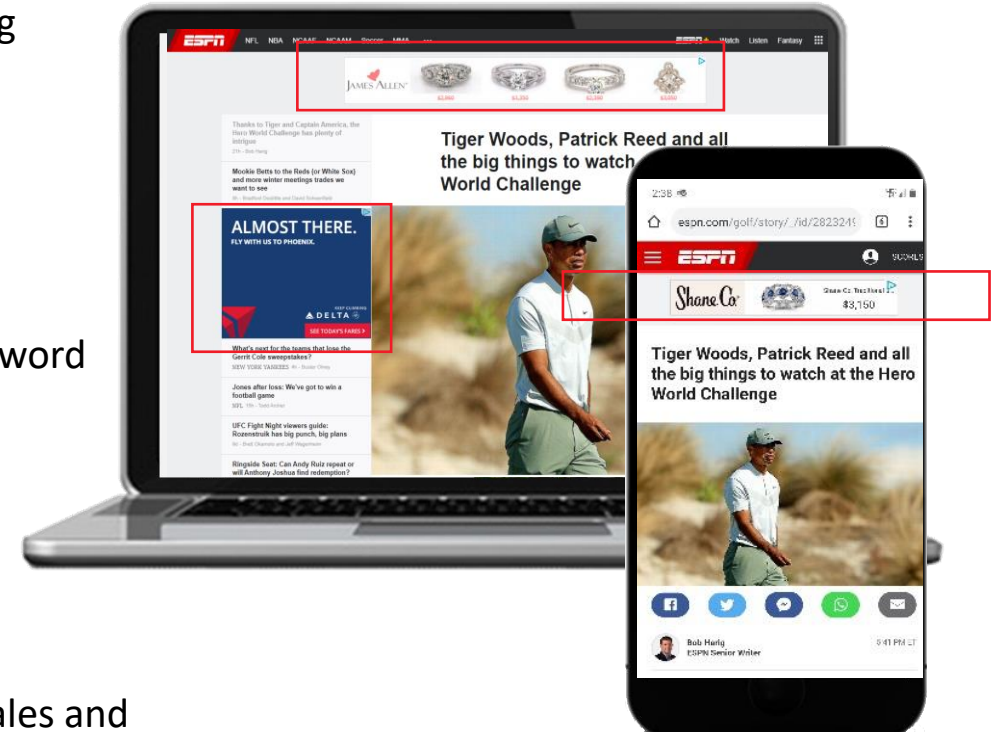

- Display ads go across all devices, appearing on websites or apps, using targeting strategies

Benefits

- Target consumers based on a geographic area and layered with four different targeting strategies: Behavioral, Artificial Intelligence (AI), Retargeting, and Keyword
- Eye catching and visually appealing

Ideal For

- Pair with Radio, TV/Cable, PPC/Ad Words
- Can help gain in-store sales, branding & awareness, website traffic, on-line sales and B2B sales

Mobile Conquesting

Explained

- Using location based, demographic, and behavioral targeting to reach consumers with display and video ads on their **mobile** devices

Benefits

- Can target both online and offline behaviors; a user doesn't have to have GPS on for ad to be served, just has to be in/on the app or mobile website
- Target in real time while consumers are at competitors, businesses, or specific locations or events, then continue to target after leaving location as well as target the neighborhoods
- Ads can be served when a weather condition you've selected happens or is forecasted; partnered by Weatherbug
- Target people from a list you have of home addresses and serve ads to them when they are at that address, continue to follow those people after they leave, and show them your ads

Ideal For

- Pair with direct mail, outdoor, TV/Cable, trade shows and other events
- Can help gain in-store sales, branding & awareness, promoting event attendance

Facebook & Instagram

Explained

Showing your display or video ads across all devices on Facebook and Instagram and on any of the Facebook advertising platforms

Benefits

- Track View Throughs (people who see ad-don't click-visit your site later) & Conversions
- We can retarget people from your website & follow them onto Facebook/Instagram and show them your ad
- Take your email addresses, phone numbers, and names/zip codes of customers or prospects, match them to their active Facebook/Instagram account and then serve them your ads on their Facebook/Instagram page; can also use these lists to find people with similar characteristics & target those people with your ads
- Offer both Facebook and Instagram targeting and detailed monthly reports that also show any other digital advertising products you are running with us
- Managing a campaign effectively is time consuming as bids have to be managed carefully & continually

Ideal For

- Pair with email marketing TV/cable and any trade shows other events.
- Can help with leads/form fill-out on websites, requests for more info/schedule appts, online sales, recruitment, app downloads & promoting event attendance.

Native Targeted Ads

Explained

Native display or video ads go across all devices and match the look, feel, and context of the website or app where they are seen, using targeting strategies.

Benefits

- People see banner display ads, but they read Native ads, because they are embedded in context, which requires using both hemispheres of the brain
- results in higher engagement, recall, and influence
- Created in real time to match format of where its appearing
- Gets 300x more of consumer's attention than processing regular display ad
- Various targeting strategies to find the fit for your needs and consumers you want

Ideal For

- Pair with radio, email, TV/cable, PPC/ad words, and banner ads
- Can help with in-store sales, leads/form fill out on website, branding & awareness, website traffic, online sales and B2B sales

Video Ads

Explained

Video ads go across all devices, appearing on websites or apps, using targeting strategies for Pre-Roll and Over-The-Top (OTT) content

Benefits

- You can target your most important consumers while they stream programming in a way never before possible with traditional TV using behavioral targeting and AI
- OTT can be watched on any type of internet connected device including Roku, Connected TV/SmartTVs, Fire TV Sticks, XBOX, PlayStation, AppleTV, ChromeCast, and more.
- Have Access to thousands of publishers including: Sling TV, Fubo.TV, Pluto.TV and channels like A&E, Discovery, ESPN, FOX, NBA, NBC, Syfy, CNN, and Food Network.
- 52% of adults over 18 use at least one OTT service
- With video pre-roll, you are reaching people who go to webpages and apps that feature your keywords, and serving them your video ad.

Ideal For

- Pair with radio, TV/cable
- Can help with branding & awareness, and B2B sales

On-Line Audio

Explained

Audio ads served to targeted online listeners who are consuming audio content across all types of devices including smart speakers

Benefits

- Ads are unskippable and can be heard on desktop, tablet, mobile, and smart speakers; ads plays in online content such as music, podcasts, and sporting events that users listen to on their devices
- Your :15 up to :30 audio ad plays in online content such as music, podcasts, and sporting events that users listen to on their devices
- On some platforms your audio ad will be served along with a companion display ad at no additional cost
- Your online audio ads run across major streaming services such as Spotify, Tunein, Soundcloud and many more

Ideal For

- Pair with radio
- Can help with branding & awareness

Amazon Targeting

Explained

You can use Amazon targeting to reach people with your display, video, or OTT ads on amazon.com, Amazon owned properties, and thousands of other websites and apps Amazon has partnered with, across all devices

Benefits

- Amazon has massive data accumulated about its users which we can use to target your ads both on and off Amazon
- Ads used will appear and run on amazon.com, imdb.com, IMDb TV, Fire TV, and over 5,000 Amazon Publishers including: USA Today, NBA.com, HGTV, and Forbes.
- 50% of US Internet users start product searches on Amazon compared to 35% on Google
- Amazon offers a unique product offering particularly for automotive dealerships, through [Amazon Vehicles](#) and Amazon Garage

Ideal For

- Pair with direct mail, radio, or email
- Can help with in-store sales, branding & awareness and website traffic

Geo Framing

Explained

Geo-Framing goes back in time to previous events where we have can capture people's mobile device ids, mapping those to their homes, and showing them ads now

Benefits

- Allows for geo-fencing, geo-retargeting, geo-retargeting lookalike, and geo-framing to show your ad to variety of target consumers at locations and continue after they leave
- It works across all devices, not just mobile phones

Ideal For

- Branding & awareness, and ideal for add-on to radio advertising, as integrating these mediums can result in nearly 4x brand awareness

Household IP Targeting

Explained

Household IP Targeting is taking your list of household addresses and finding their IP addresses and showing your display, native, or video ad only to those people, across all devices

Benefits

- You can target any data list you have (current, past or lead list) or purchase a data list from a direct mail vendor
- You are able to reach a household 25-50 times a month with IP Targeting!
- You are provided with a “match back” report showing how many customers were from the IP targeted ads.
- Extremely cost efficient
- The ads will not get blocked

Ideal For

- Pair (or replace) with direct mail, trade shows or other events
- Can help with in-store sales
- Some examples of ideal industries: insurance companies, auto dealers, colleges and universities, medical practices, business to business, financial institutions, politicians and health-care

Live Chat

Explained

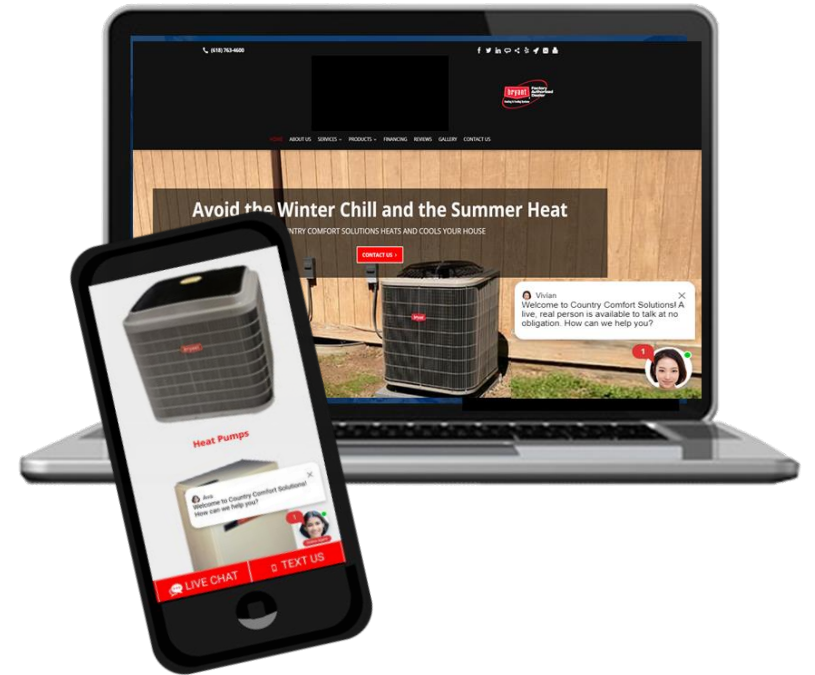

Trained agents with knowledge of your company get lead information, where you will be emailed with the real time, full transcription of the chat or text conversation.

Benefits

- You can get more leads by engaging your prospects with a chat box and text-to-chat on your website
- Capture lead information – 42% of chat leads are outside of normal business hours

Ideal For

- Helping with leads/form fill out on websites, phone calls, requests for more info or to schedule appts and B2B sales

Pay Per Click (PPC)

Explained

Showing your text ads on the Google Search Engine Results page when a user searches keywords related to your business, across all devices.

Benefits

- We focus on getting as many clicks and conversions as we can until we earn the spots in the top four of a page/bottom three of a page
- Monthly reports to show to you your ROI

Ideal For

- Getting to the top of the page quickly, increased website traffic and immediate impact

Search Engine Optimization (SEO)

Explained

Search Engine Optimization is the practice of improving and promoting a website to increase the number of visitors the site receives from search engines.

Benefits

- The online reputation management platform is a great tool that allows clients to manage their business' online presence all from one software program
- Updates every 24 hours for review of information program finds
- The ideal consumer won't look past the first five search results; optimize to get better results and higher recall of brand
- A custom-quoted, handcrafted SEO strategy is based on the overall website needs, current rank, competition and market

Ideal For

- Helping gain more website traffic, brand credibility and awareness

Email Marketing

Explained

TARGETING OPTIONS

Digital Glossary:

- **Behavioral Targeting:** Showing ads to specific consumers based on their previous on-line behavior
- **Keyword Targeting:** Showing ads on webpages and apps that contain keywords related to your business
- **Retargeting:** Following people after they leave your website and showing them your display ad, on other websites and apps they go to, across all devices
- **Artificial Intelligence (AI):** Showing ads to people using machine learning to target consumers based on who is engaging with the ad
- **CTR:** The ratio of users who click on a specific link to the number of total users who view a page, email, or advertisement. National CTR is 0.07%
- **View Through:** measures the number of post-impression response or viewthrough from display media impressions viewed during and following an online advertising campaign
- **Conversion:** Occurs when a visitor to your website completes a desired goal, such as filling out a form or making a purchase. The percentage of total visitors that convert is called your conversion rate.
- **Frequency Caps:** If someone is shown the ad a certain amount of times without coming back to the client's website, we stop showing it to that person so we don't waste impressions.
- **Conversion Tags:** Once a person has converted (done what the client wants the user to do on the website i.e., fill out a form or click to a certain page, we use a conversion tag and stop showing them the ad
- **Geo Fencing:** Target people in real time while at your competitors, businesses, or specific locations or events
- **Geo Retargeting:** Continue to target people after they leave the locations we are geo-fencing
- **Geo Lookalike:** Continue to target people after they leave the locations we are geo-fencing and target those people's neighborhoods
- **OTT:** Over-the-top media service is a streaming media service offered directly to viewers via the Internet
