**Re:** ***NDDOT PCC MAJOR REHABILITATION  
US 52, JCT US 281/200 TO 7TH ST. S, CARRINGTON  
PROJECT # NH-3-052(049)222 (PCN-21918)***

Dear Residents,

During the first week of June, 2019, Strata Corporation will begin construction on the above referenced ND Department of Transportation road project. The work consists of asphalt milling, remove and replace sidewalk, curb & gutter in certain areas, PCC paving and miscellaneous work.

Strata Corporation will be doing road construction on US 52; public access will be limited to two-lane head to head traffic and a detour route. Sidewalks in the construction zone will be limited to certain marked pedestrian crossings throughout the duration of the project. There will be 3 construction phases requiring multiple traffic control layouts including road closures and detours. Roadway and sidewalks under construction will be barricaded and traffic control routes will be clearly marked for use. Residents using this route should expect traffic delays and are encouraged to use alternate routes. The speed limit will be enforced in the entire construction zone and detour route.

Safety of the City of Carrington residents, the traveling public, and our workers is of our utmost and primary concern. Also, please inform children in the neighborhood to stay clear of all construction areas and construction equipment.

We thank you in advance for your cooperation and patience with the project. Please contact us with your questions or concerns at 701-775-4205.

Sincerely,  
STRATA CORPORATION

Kyle Sather  
Project Manager
