***Bronze - Diamond levels will receive name recognition on or near the entrance**

“This renovation will ensure our students can play safely and create an extension of their learning environment.

These improvements will provide our students and the Valley City community a space to be proud of.”

- Principal Becky Goven

JEFFERSON ELEMENTARY

PLAYGROUND RENOVATION

WHY

The degraded conditions of the gravel, mulch, and concrete areas have increased the risk of serious injuries. The significant drainage issues create muddy areas that limit the space available for kids to play in a clean and safe environment.

GOAL

Provide a safe and clean playground for Jefferson Elementary students and the Valley City community to use year round.

PROJECT

1. Shape site for proper drainage.
2. Replace all wood mulch and gravel areas with rubber mulch.
3. Replace grass/mud areas with artificial turf.
4. Create inviting entrance accessible from the south parking lot.

COST

The fundraising goal for the Jefferson Playground Renovation is \$300,000. \$100,000 has already been committed!
The Jefferson PTO has committed \$25,000.

The Jefferson Playground Renovation will make this highly used area safe and clean for kids of all ages year round. Your support will have a positive impact on the Valley City community and is a necessary part in the success of this project.

FUNDRAISING GOAL \$300,000

\$25,000 COMMITTED BY THE JEFFERSON PTO
