Nurse's Name: Sarah Borgeson

Nurse's Department: Public Health

Tell us about the nurse who cared for you or a loved one: As a public health nurse, Sarah Borgeson provides nursing visits to our home care clients, assisting them to live safely and independently at home for as long as possible. For some clients, Sarah may be considered as their only support system, their health advocate, or even their family. Sarah has embraced these roles with gusto, and she leaves no stone unturned, especially when life becomes more challenging for the clients. A few months ago, while Sarah was providing weekly visits to a long-time client, it became increasingly obvious that the client's condition was steadily declining, and soon, he would no longer be able to live at home. When the client experienced a life-threatening crisis, Sarah personally accompanied the client to the medical center, repeatedly advocated on his behalf, and collaborated with his guardian to ensure that the client could access the level of care he so desperately needed. Sarah's caring heart continues as she still regularly visits the client in his new "home." Respect. Compassion. Kindness. Advocacy. These words describe an extraordinary nurse: Sarah Borgeson.
