

Soft water starts here.

Introducing the Aquasential® Select Plus Series™ and Select Series™ Water Softeners.

Having hard water makes life, well, harder. It means that dissolved minerals enter your home through your water, forming unwanted scale anywhere that it goes.

And scale means costly wear and tear to water heaters and other water-using appliances, extra money spent on soap and laundry detergent, and the time and hassle that comes with battling dry skin and dull hair.

But an Aquasential® Select Plus Series™ or Select Series™ Water Softener is the easy and affordable way to treat hard water in your home.

Culligan® has provided superior service to over 10 million homes and businesses around the world. Culligan is totally focused on water with local, professional water experts offering a FREE in-home or virtual water consultation, friendly, knowledgeable service, and no-worry installation.

Soft water saves money.

Choosing a water softener doesn't just give you better water, it also saves you money every time you use it. That's because a water softener makes all the things you do with water better!

24%
energy savings

by using softened cool water to wash clothes¹

50%
reduced detergent costs

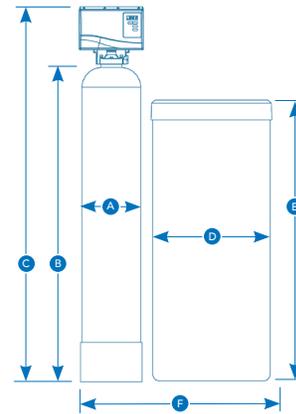

when washing laundry, hair, and body in soft water²

Culligan Aquasential® Select Plus Series™ and Select Series™ Water Softeners

Product specifications

- ✓ Cul-Flo-Valv® allows you to bypass the system when you don't want soft water, like watering your lawn.
- ✓ Culligan Soft-Minder® option monitors daily water use and activates regeneration only when needed to salt and water.
- ✓ Exclusive, non-corrosive 5-cycle motorized control valve directs water flow during service and regeneration cycles.
- ✓ Cullex resin is backed by a limited lifetime warranty and offers maximum water softening capacity, stability, and lifespan.
- ✓ High-grade quartz underbedding evenly distributes water to maximize flow rates.
- ✓ Low-voltage, fully-programmable Accusoft® Microprocessor offers easy data entry, and is safe from most power interruptions and surges.
- ✓ Guest-Cycle recharge feature provides an extra supply of conditioned water when needed.
- ✓ Sturdy, filament-wound exterior and smooth, non-permeable inner tank and shell is constructed with NSF listed materials.
- ✓ Extended life thanks to Dubl-Safe brine refill control with assured shut-off and corrosion-proof components.
- ✓ System protection from a non-corrosive brine plate that assists in dissolving salt and protects the system from salt impurities.
- ✓ Ready to fit your home with Select Plus for 1" plumbing and Select for ¾" plumbing.
- ✓ Indoor and outdoor systems available.
