There will be an award for the most home runs by a "Large Team" (6 or more members) and a "Small Team" (5 or less members). This will be done after all championship rounds have completed.

5. Contest Stages:

In the first round, contestants will be given 10 outs. An out is defined as any swing of the bat that does not result in a "home run." Due to time constraints, there will be a maximum of five minutes allowed for each contestant regardless of number of outs. Each contestant's total number of home runs will be tallied. At the end of round one, the contestants with the highest home run totals will move on to the second round. If a division has more than 20 entrants, the top 10 scores will move forward. If a division has less than 20 entrants the top 50% of the entrants will move onto the second round. If there are no home runs in any first round, there will be no winner or further rounds for that division.

In the second round, each batter will be given ten outs. An out is defined as any swing of the bat that does not result in a "home run." Due to time constraints, there will be a maximum of five minutes allowed for each contestant regardless of number of outs. The second round scores will stand alone, and the score of the first round will not be counted into the second round totals. The top 2 scores from the second round will move onto the finale.

In the final round, the top two contestants from each division will be given another 10 out round following the same rules as the second round.

In the event of a tie, the highest number of total home runs hit from all three rounds will win. If there is still a tie, there will be a three out playoff. The three out playoff will repeat until there is a winner.

Batting helmets will be provided along with a limited number of bats. Contestants are encouraged to bring their own bat and helmet if they wish. Bats may be made of wood or metal.

A pitching machine will be provided for all divisions. Any participant in any division may bring someone to pitch to you. In the event that you do not have a pitcher the machine will be used.
