

Classic / i.Net PAGING HORN

MODEL PGHRN-15

FUNCTION

Lencore's decorative paging horns are available when a surface-mounted speaker is desired or necessary due to site configuration or condition. Lencore's paging horn provides intelligible voice paging for indoor and outdoor use. The decorative paging horns are typically specified in areas where the ambient background noise is already greater than 50 dB. These areas might include cafeteria areas where no ceiling tile is present.

These decorative paging horns have a dispersion of 70° H × 90° V. Paging speakers are also available for offices, conference rooms, public areas, cafeterias, and other enclosed areas where aesthetics is a concern.
