

THE OTHER SIDE OF MIDNIGHT WITH FRANK MORANO

FRANK MORANO

Overnight's Sensation

Stories that Shape Our World

Face it: sometimes you need your news with a martini and a side of "Star Trek." Frank Morano takes listeners on an unexpected journey through current events, mixing it up with his deep love of pop culture. It's a completely unexpected take on the news, both what made the headlines (and what didn't).

In between, Frank could be sharing his love of cigars and cheese, as well as more than a few paranormal tidbits. It's talk radio unlike anything you've heard.
