

Hello kai Ice,

How are you doing? Hope you are doing fine. I received your letter with great happiness and it a pleasure having you as my pen pal. My house name is Ramatulai and I am 10 years old. I am in class six, attending Berean preparatory school. I am from Freetown, Sierra Leone, West Africa. Freetown is the capital city of Sierra Leone.

One thing I like to at school is singing during lunch hour, but at home after school, I read my books and my favorite subjects are mathematic, English language and social studies.

My favorite food is pizza, especially for dinner. My school athletic house color is mauve.

In my school I belong to the hygiene club. We teach other student how to wash hand in order to prevent sickness such as typhoid and other infectious diseases that can be easily contacted.

I am the last girl child to my mother; I have two brothers and one sisters all of them in their higher secondary school.

This is my school house color. I am the one with the mauve standing at the back. Do you school have color day? Does your school organized inter-house athletic sport meet? We do here, and by the grace of God our athletic sport meet will take place this coming November 2022. I will writer you about it when the date is finalized. Hope to hear from you. Thank you. With love, from BILKISU RAMATULAI BANGURA
