INTELLIGENCE FOR YOUR LIFE

Already a figure in TV and the music industry, Tesh branched out to another medium, radio. He started "The John Tesh Radio Show" in 2003 and has since become one of the most listened-to voices on the air. The show has recently won Tesh Radio Ink magazine's Reader's Poll for "Favorite Syndicated Radio personality" and airs on about 280 stations nationwide.

"This show was created for my wife, (actress Connie Sellecca). She's one of those people where, you look at her side of the bed and see six issues of Prevention magazine and five months of Oprah magazine . . . she never has time to read any of that stuff. I wanted to serve her and everyone like her. I wanted to create a radio program with purpose, a show that moves people forward in their life." John Tesh

"Women 25-54 have doubled to a 5.4 share (this is the best share in this daypart in station history since our first fall on the air in 2001)and listener feedback is excellent!"

THE JOHN TESH RADIO SHOW

"John Tesh's Radio Show is #1 in our 35-64 Target Demo in both Women and Persons. Tesh blew away the competition. If John spent any more time on top, he'd get nosebleeds!".

I will be listening every night, just because you have the best radio show ever. If you could, could you please have some information about mending fences with your old friends? I need some and I thought you could help me. Thank you! Rebecca"

"John, my name is Cyndi and I am a 20 year old college student. First of all I want to thank you for your show. I have requested to work nights at my job because I know your show will always be on. You have the best tips in the world on your show and I find myself calling friends from work telling them to turn the radio to your show. Your show has helped my friends and I become closer because now we have something that we can talk about freely and that we use to encourage each other. Cyndi"

POWERFUL LESSONS FOR PERSONAL GROWTH

GARDEN CITY

John Tesh developed a love for music at an early age. Growing up in Garden City, Long Island, New York, he began playing piano and trumpet at age 6, and as a teenager joined the New York State Symphonic Orchestra. He also studied with teachers from the prestigious Juilliard School as a youth.

His passion led him to leave his career in broadcasting in order to solely concentrate on music. John established his own label, Garden City Music, and has released over 30 albums, including three that were certified gold by the RIAA.

His latest project "JohnTesh ALIVE - music&dance" is a stunning musical celebration inspired by the beauty of ballet and the passion of hip hop.

LIVE AT RED ROCKS

John Tesh's music really came to the public's attention when he released **John Tesh: Live at Red Rocks** in 1995.

Filmed at the scenic Red Rocks amphitheater, Tesh created a drama that featured a full orchestra and gymnastic performances. Although the filming was precarious, threatened by a rainstorm and unseasonable cold, the video was a smashing success. The performance was one of PBS's most successful fundraisers and went on to earn Tesh a gold record as his debut solo album.

ALIVE - MUSIC&DANCE from John Tesh, is an unforgettable fusion of music and dance coming together as never before seen on stage.

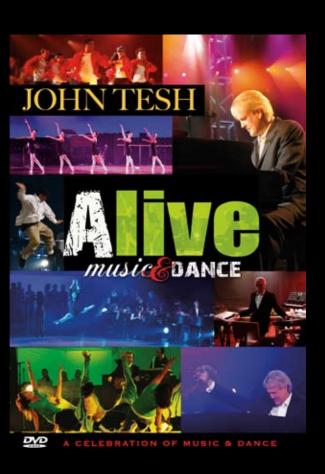

The production, inspired by John's sneak peak at his young daughter's dance lessons one day, features a cast of nearly one hundred - including a choir, singers, band, strings and ballet, hip hop and lyrical dancers between the ages of 13 and 21.

John Tesh's latest television special, ALIVE - MUSIC&DANCE is a celebration of everything he is passionate about - music, dance and family. A spectacular evening of hip-hop (yes, hip-hop!), ballet, lighting and staging effects, combined with the talents of guest performers and young dancers the show becomes a high-energy evening of music and dance for the entire family.

The TV special, DVD and CD showcase 14 new performances by Tesh and highlight the talents of dancer Breeze Lee, co-artistic director and choreographer on an LA-based dance theater company, and ballerina Julia Eichten, a 2007 freshman at The Juilliard School.

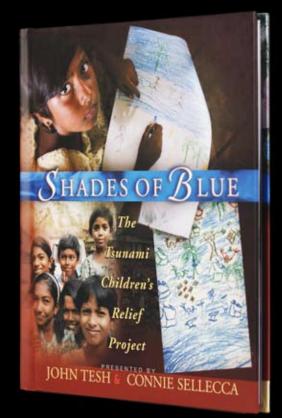

THE PASSION FOR PURPOSE

John's passion for purpose has led him to encourage others to find themselves by serving others in need. When the tsunami hit in Sri Lanka, John and his family headed out to help.

Giving paper and crayons to the children, it became a form of communication and therapy. The children drew pictures of the horror of the "blue waves", and their drawings inspired John & Connie to publish a book of their art to benefit the victims.

John and his team from the radio show put out a call to mobilize a convoy of RV's and volunteers to help the Katrina victims.

People from all over the nation donated time, money, goods and vehicles for the outreach.
