

Severe Storms Possible through Friday

July 10, 2025
5:16 AM

For the Western Carolinas and Northeast Georgia

OVERVIEW

Strong to severe thunderstorms are possible each afternoon and evening through Friday. **See slide 2 for the severe threat on Friday & Saturday.**

TIMING

- Each afternoon and evening.

HAZARDS & IMPACTS

- Damaging wind gusts are the main hazard with any severe storms that develop.** However, locally heavy rainfall may result in localized flash flooding, especially over areas that receive multiple rounds of rain.

NWS ALERTS

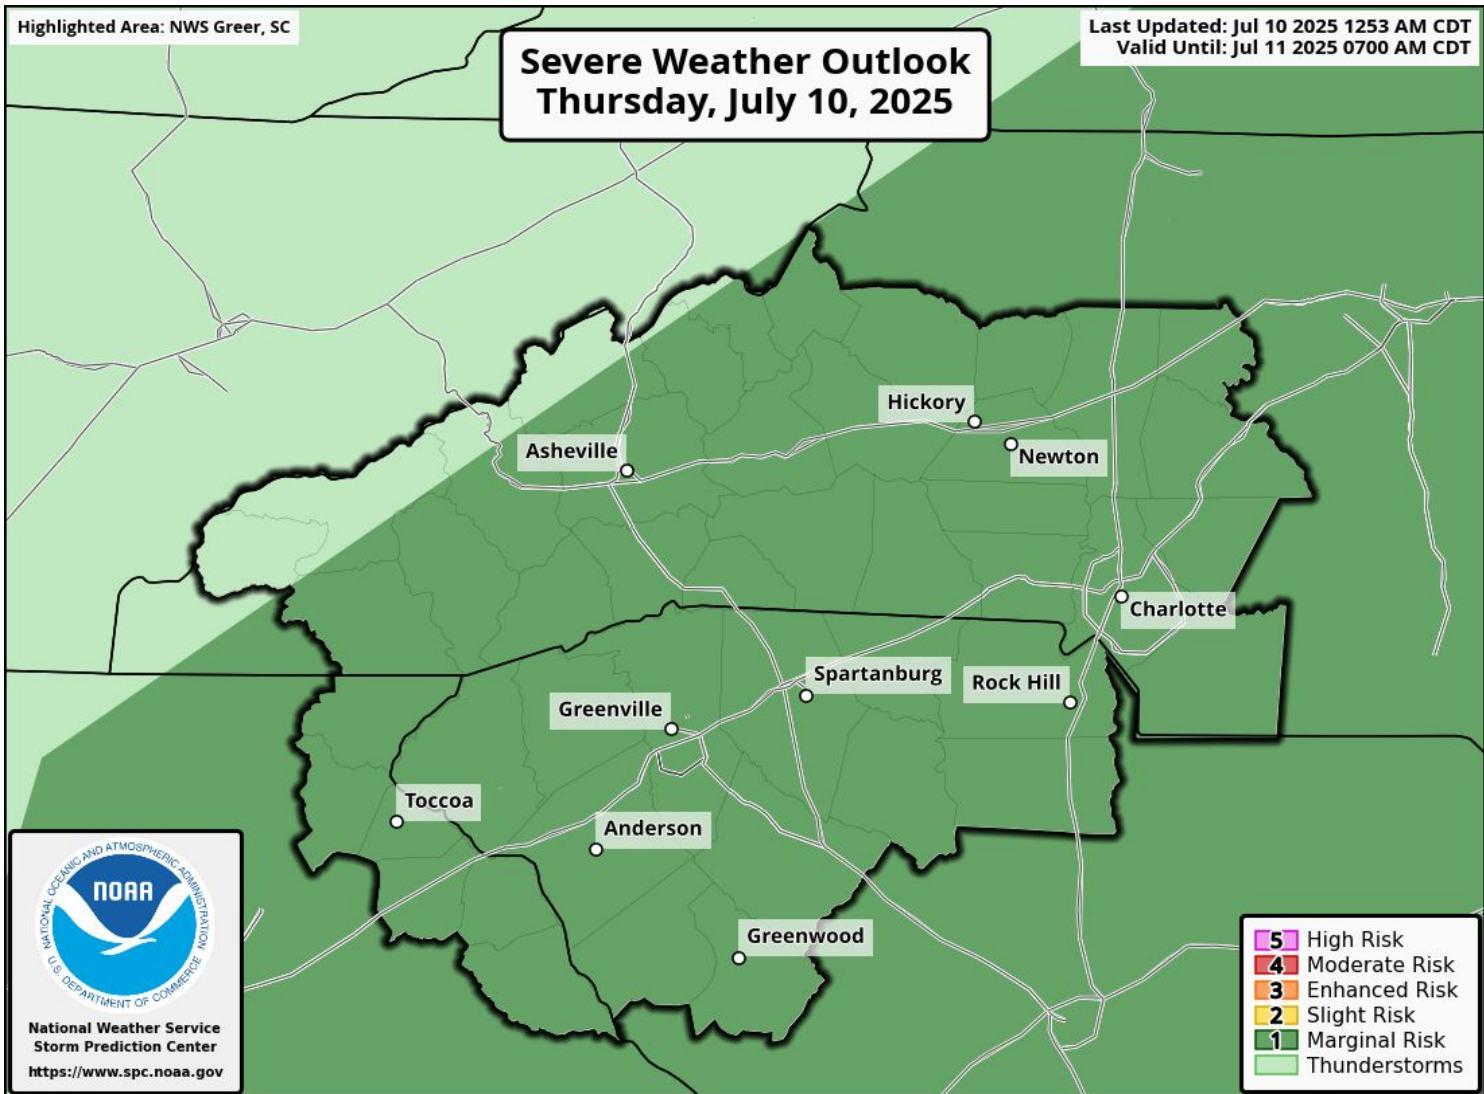

- None at this time.

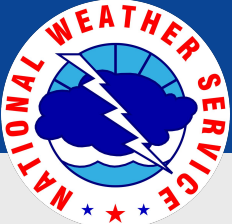

ADDITIONAL INFORMATION

- Although we can expect more showers and thunderstorms on Saturday, strong to severe thunderstorms appear less likely over the weekend.

NEXT BRIEFING

- By 6 PM Thursday, July 10th.
