

# Listening Sessions:

## AdventHealth CON Community Events

### WNC Deserves More. *Let's Build It Together.*

At AdventHealth, we believe everyone deserves more: more access, compassion, innovation and choices in health care. This year, we're building on our legacy of whole-person care to bring a new level of excellence to Western North Carolina.

The North Carolina Department of Health and Human Services recently announced the area needs an additional 129 acute care beds.

#### ADDING 129 BEDS TO BRING YOU MORE OF WHAT MATTERS MOST:

- More access to emergency and specialty care
- More choices for how and where you receive care
- More whole-person healing, close to home

On October 15, 2025, AdventHealth will submit a CON application to locate these additional beds at the new hospital in Buncombe County.

### More Whole-Person Care to Help More People

Thanks to your outpouring of support, the State has already approved 93 beds for this hospital.

We're designing this expansion to build on your voices – your stories, your needs, your hopes for better care in Buncombe, Graham, Madison, and Yancey counties.

#### ADVENTHEALTH COMMUNITY LISTENING SESSION

Join us to preview the hospital design, explore the advanced care it will bring to our community and share your voice directly with the State before AdventHealth submits its application.
