

Emergency Closure Meals Sites for Jackson County School Age Children

(March 16, 2020 - April 3, 2020)

During the State mandated closure of Michigan schools, we want to assure our community that we are working to address some of the needs that have come to light. Jackson Public Schools recognizes that students are in need of healthy meals each day. To that end we have put together a list of sites where meals will be available for children. At this time, the USDA has lifted the requirement that meals must be eaten on site. Families will be asked to come to the service point and given meals. Each day we will hand out one lunch for the day and one breakfast for the next day per child. On Fridays we will provide 3 lunches and 3 breakfasts per child to help sustain them over the weekend. All meals will be distributed in individual bags. We are pleased to be able to provide meals for children at the sites below at the listed times.

We will serve meals Monday – Friday from March 16 – April 3, 2020.
