

ID No. 01-61-010

System Pressure Advisory!

The water consumers of the Town of Spruce Pine, in Mitchell County, experienced periods of low pressure and outages in the distribution system due to repairs to a distribution water line. The area affected includes:

All of Highway 226S, including connecting side streets, Deer Park Lake Road, Harris Street, Greenwood Road, Swiss Pine Lake Drive, McHone Road, Carter's Ridge Rd., Golf Course area, Summit Avenue

Periods of low or no pressure in the distribution system increases the potential for introduction of bacteria into the water system.

Therefore, when water service is restored, consumers are advised to **boil all water** used for human consumption (including drinking, making ice, brushing teeth, washing dishes and food preparation) or use bottled water.

Vigorous boiling for one (1) minute should kill any disease-causing organisms that may be present in the water.

Water customers are strongly urged to conserve water whenever possible. This advisory remains in effect until further written notification is issued.

This advisory issued on October 22, 2021.
