

12 = 28 = 22

### Fast Easy turtles

- 6 each whole pecans
- 6 each Milk Duds

## Instructions

1. Arrange the Pecans in a circle on the microwave safe plate.
2. Balance a Milk Dud on top of each pecan. You may need to flatten the Milk Duds slightly to get them to balance.
3. Microwave 20-25 seconds.
4. Remove from the microwave and quickly flatten the candies a bit more more using the back of the tines of a salad fork.
5. Chill or eat them warm.

## Notes

You can double the size of this recipe by increasing the cooking time slightly. I would not try to do more than 12 at a time as you need to flatten them quickly before they cool.
