EEO Outreach Program

It is our policy to provide equal employment opportunity to all qualified individuals without regard to their race, color, religion, national origin, sex, age or disability in all personnel actions including recruitment, evaluation, selection, promotion, compensation, training and termination. It is our policy to promote equal employment opportunity through a positive, continuing program of specific practices designed to insure the full realization of equal opportunity without regard to race, color, religion, national origin, sex, age or disability.

The Station General Manager Randy Rothstein is the person responsible for the administration and implementation of our Equal Opportunity Program and is charged with the requirement to assure broad outreach for each full time position the station recruits for when there is a full-time hiring opportunity. If a hiring opportunity for a full-time employee should occur, job descriptions shall be mailed to a diverse group of organizations to insure all areas of our community and state will be notified through a broad program of dissemination. It is our specified goal to reach all potential candidates and make them aware of full time openings when they occur and provide equal opportunity to apply. Media shall be utilized for recruitment in a manner that will contain no indication, either explicit or implicit of a preference for one race, national origin, color, religion, age or sex over another. In all cases we will use newspaper, plus various other publications and web-based resources, including ads on all of our radio stations, creating awareness for all full-time openings.

It is also the responsibility of all persons who make employment decisions with respect to recruitment, evaluation, selection, promotion, compensation, training and termination of employees to insure that no person is discriminated against in employment because of race, color, religion, national origin, sex, age, or disability and to periodically review the effectiveness of the program and make changes when appropriate. Management performance in making this policy effective is reviewed annually by Lucas Carpenter, the Corporation officer in charge of equal employment opportunity matters.

Station employees have been informed of the FCC and station's EEO and non-discrimination policies at staff meetings and with a bulletin placed on the station bulletin board. An employee handbook is provided to each new employee that states the Stations Employment Unit's commitment to equal employment opportunity. Each employee is required to read this provision and sign a statement that they will abide by its terms.

We welcome and encourage requests from organizations that assist in job-seeker assistance that wish to be notified of any openings. Each such request will result in the organization being made aware of the job openings.

We will continue to review our recruitment methods to ensure the fullest possible outreach.
