

Virtual Learning Academy Considerations

To ensure that our Virtual Learning Academy meets the same standards as traditional learning please know that the level of expectation and accountability will be similar to that of an in-person classroom

This option should not be confused with Non-Traditional Instruction (NTI) days that were used during school closures at the end of last year. NTI may still be used for short-term closures for those enrolled in the traditional setting. The use of paper packets will be very limited with this option

Students who fall more than 2 weeks behind will be placed on a 2 week corrective action plan. If they are unable to catch up, they will be required to enter the traditional setting or homeschool on their own
